

FEEDBACK | HLTV

Feedback 02/03/2024

1. **Landing page:** The user can't Sign in with the Social Platform. These buttons are not working

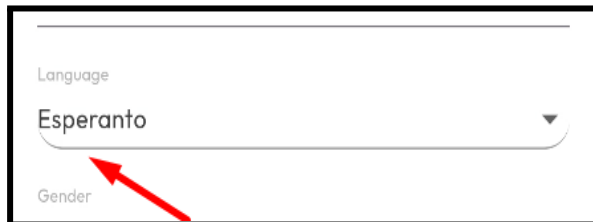

2. **Landing page:** The placeholder name and validation message are different.

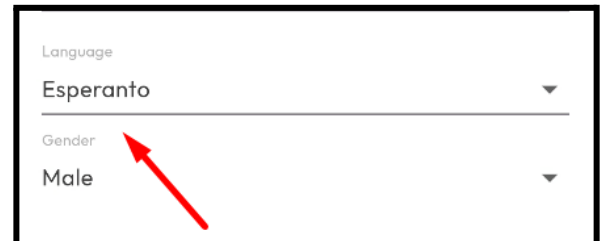

3. **Landing Page> Register Now:** The placeholder name's first letter should be capitalized.

A screenshot of a registration form with three input fields. The first field is labeled "First Name". The second field is labeled "last Name" and is highlighted with a red rectangle. The third field is labeled "Email Id".

4. **Landing Page> Register Now:** The UI Slightly changed but after inputting value to other fields it becomes normal.

5. This icon continuously appears as a loading. But by tapping this icon the user will successfully visit the dashboard.

6. **Dashboard:** Failed to load “See all” recommendations.

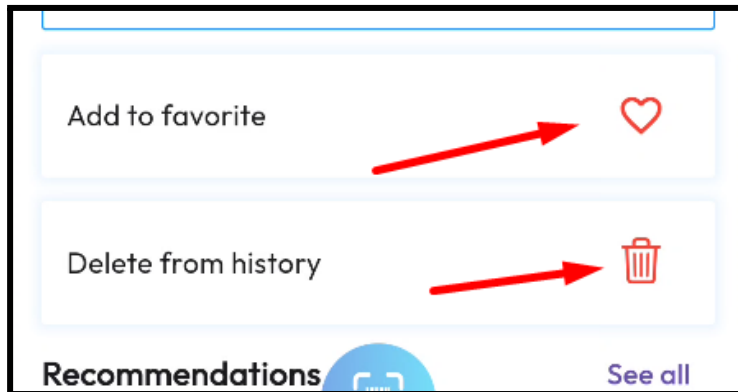

7. **Dashboard > Menu button:** The red-marked functions aren't working.

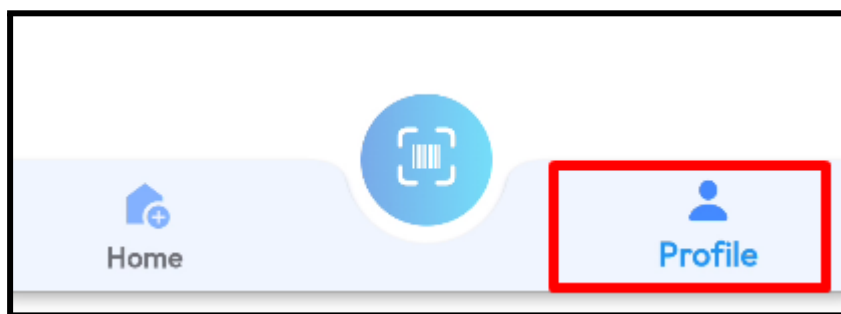

8. **Dashboard > Contact Us:** The overall functionality is not working. The button name should be "Submit" instead of 'Sent'.

A screenshot of a 'Contact with Us' form. The form has three input fields: 'Your Name', 'Email Address', and 'Your Message'. Below the input fields is a blue button labeled 'Sent'. The button is enclosed in a red rectangular box, indicating it is the focus of the report.

9. **Dashboard > Recommended product:** These buttons (Add to favourites & Delete from history) are not working.

10. **Dashboard> Profile:** The Profile section is not working. No Form or data appears.

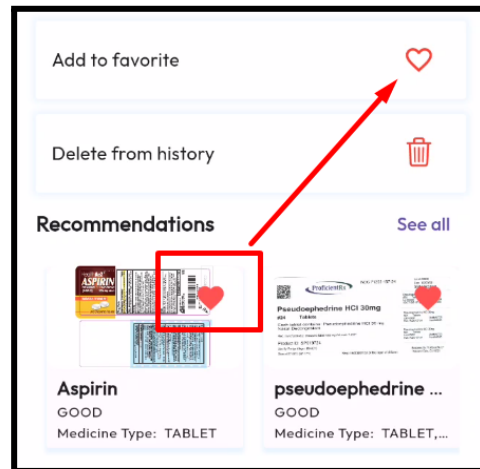

Feedback 20/03/2024

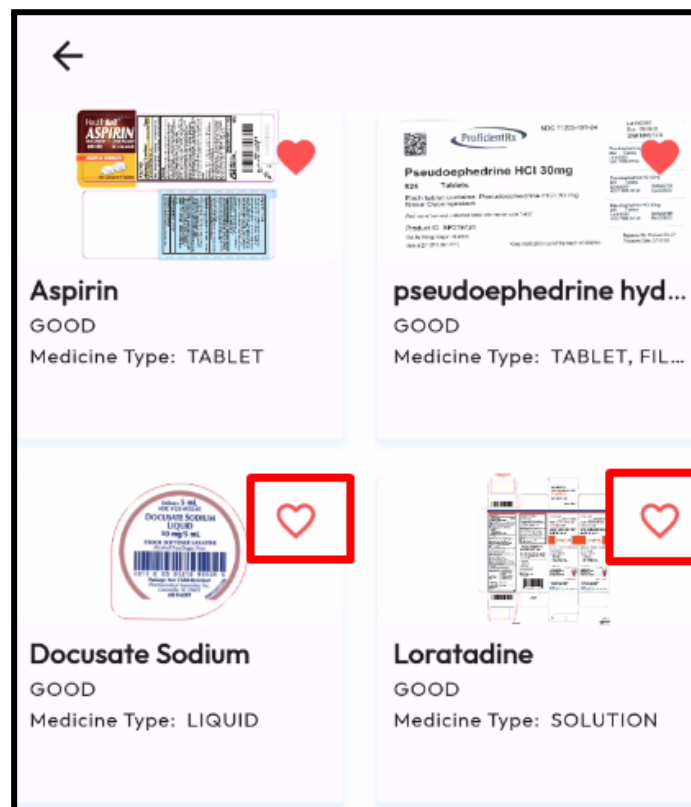

1. **Landing page > Register Now:** There is no validation message for the wrong data. And also can be registered with the wrong info.

A screenshot of a registration form titled 'Register Now'. It contains three input fields: 'First Name' with placeholder text '---££', 'Last Name' with placeholder text '£££@??!', and 'Email Id' with placeholder text '###@hn.com'.

2. **Dashboard > Recommendations:** The "Add to favourite" button works properly. However, when I added this product to my favourite list, the icon was not filled in.

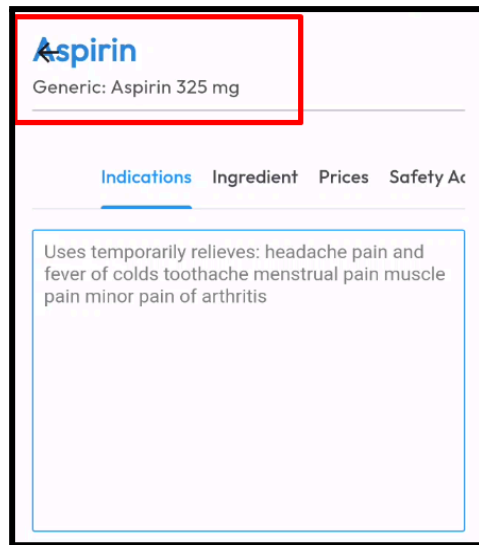

3. **Dashboard > Recommendation:** If the User clicks The "Add to Favourite" Button from See all recommended products, it doesn't work.

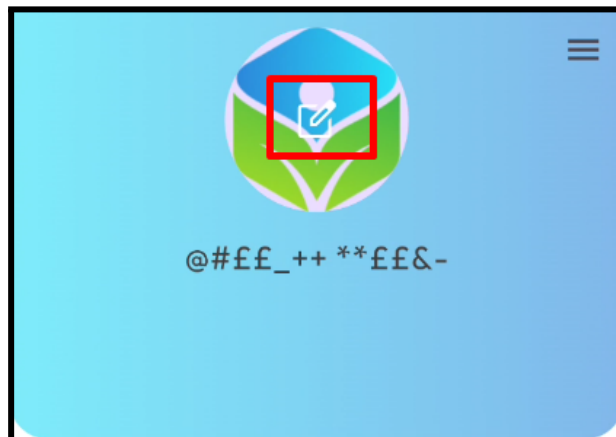

4. **Menu button > My Favourites:** Once the user selects an item from the favourite list he can't remove this item from the favourite list. The remove button doesn't work

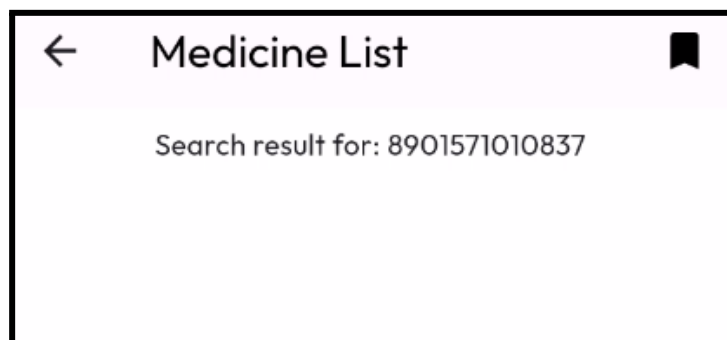

5. The back button creates visibility issues. *[Not necessary, could be done for the betterment]*

6. The user can't change the profile photo. This button doesn't work.

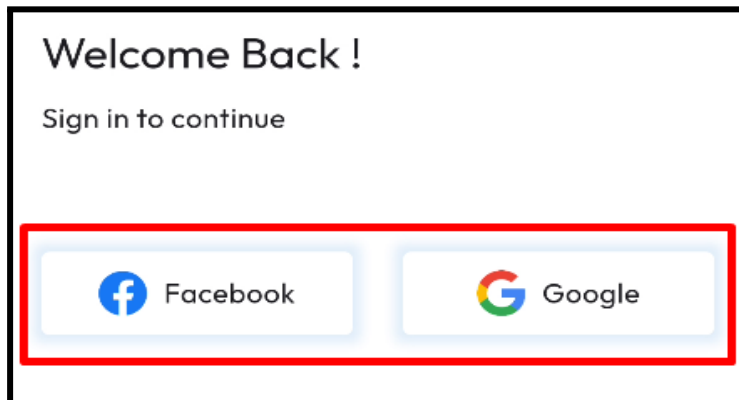

7. The Barcode scanner doesn't redirect to the website after scanning.

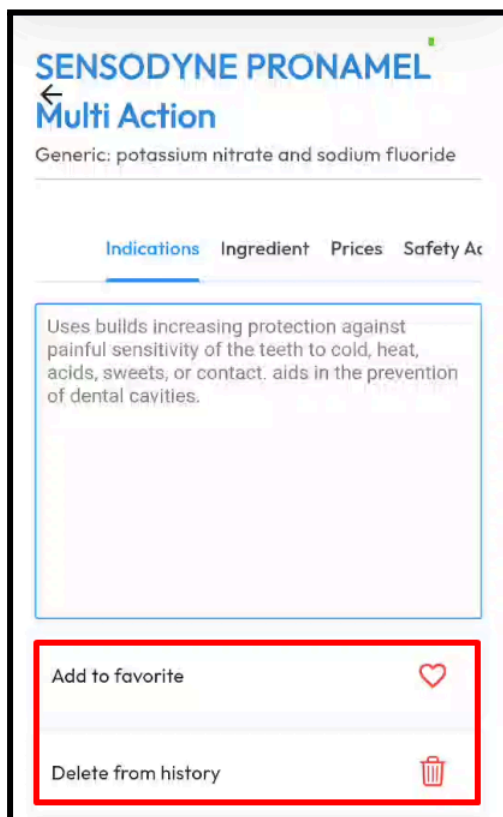

Feedback 04/04/2024

1. **Landing page:** The user can't Sign in with the Social Platform. These buttons are not working.

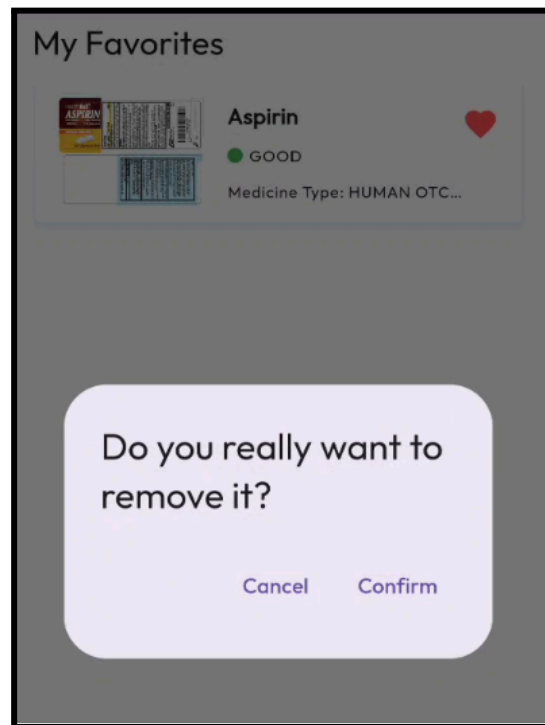

2. **No E-mail and password validation.** Users can register with an invalid e-mail and only a 6-digit password. The password should be upper-lowercase validation.

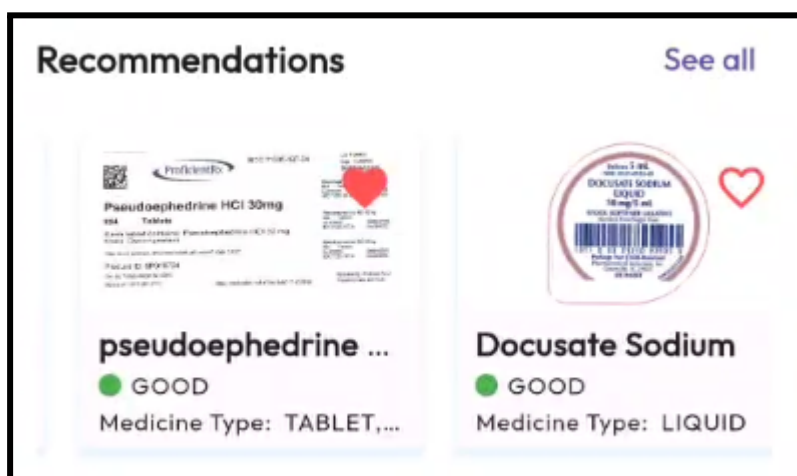

3. **Scanner > Image scan > Take a picture:** The product's profile has these red-marked sections.

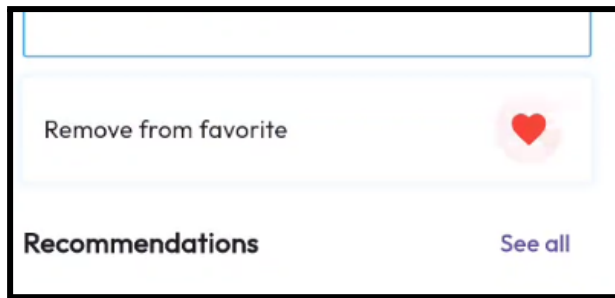

4. **Menu button > My favourites:** if the user wants to remove a product from the favourite list, there comes an alert pop-up window, where the user can cancel or confirm. If he clicks on any button it works functionally but doesn't disappear alert pop-up window

5. Users can't remove a product from the favourite list in the dashboard. The favourite icon only works for filled but when the user again clicks on the filled icon it redirects to the product details page.

6. Dashboard > recommendations – Providing a server error while clicking on “remove from favourites”

Discussion 06/04/2024

1. **The medicine search model** doesn't have any activity Field. But the Favourite list/history section has data and activity key/field. So, we couldn't add any favourite/history function on the medicine details page. The endpoint is-

"/drug-info/info/?columns=media&columns=ndc_spl_set_id&columns=ndc_brand_name&columns=ndc_dosage_form&columns=ndc_product_type"
data: {"img_text": text},

Feedback 25/06/2024

1. Search > Single drug info doesn't appear.
2. Add a **Privacy policy and Terms of service** fields in the App. The location of those two fields is in the Hamburger menu.
